- » Premium Automotive Grade Toughened Glass
- » 12mm thick x 1200mm high available in widths from 500-1300mm
- » Certified for pool fencing
- » Mechanically polished edges
- » Conforms to AS/NZS 2208:1996, AS1926.1-2007/2012
NZS 8500-2006
- » Gate and hinge panels available

GLASS FOR BALUSTRADE

- » Premium Automotive Grade Heat Soaked Glass
- » 12mm thick x 970mm high available in widths from 600-1300mm
- » Rounded safety edges
- » Conforms to AS/NZS 2208:1996
- » NOT SUITABLE FOR POOLS
- » Suitable for residential applications where the falls are less than 10 meters and installed in accordance to the relevant Building Codes and Regulations.
- » Suitable to be used Region B Terrain Category 1
- » Refer Product Technical Statement for further information.

CHOOSE YOUR POST SYSTEM

Either system can be used with balustrade or pool glass

SPIGOTS (FRAMELESS)

Our most popular system is constructed from stainless steel and comes with a choice of matte black or mirror polish finishes. This system offers great flexibility and ease of adjustment.

Chisel Spigots

Slimline

ACCESSORIES

FRICTION FIT CLAMPS

Clamps provide additional stability between panels if required. They are available in fixed and variable angles to enable easy installation. To fit, simply slide onto glass and tighten grub screw using an allen key.

NOTE: Clamps are not required if you are using a handrail.

FRICTION FIT HANDRAIL

Recommended for balustrade & optional for pools. The friction fit handrail is simple to fit and adds stability to a run of panels. Fixed and variable joiners are available along with end caps and wall brackets.

POST SYSTEM (SEMI-FRAMELESS)

Constructed from aluminium and powder coated in satin black and palladium silver finishes. The post system offers great flexibility to achieve various looks by simply cutting the posts to different lengths and/or adding a handrail.

Possible Post Configurations

Posts

Post & Top Fit Handrail

Shortened Post

Shortened Post & Friction-fit Handrail

BALUSTRADE ONLY

Air Gap with Top Fit Handrail

Posts & Offset Handrail

ACCESSORIES

Handrails are easy to fit. There are a range of angle joiners and fixing brackets available.

OVAL OR RECTANGULAR TOP FIT HANDRAIL

OFFSET HANDRAIL – NOT FOR POOL USE

Finishes: Satin Black & Palladium Silver

HINGES AND LATCHES

Style and simplicity of design without compromising on quality or safety. Custom made to fit The Architects Choice range of Post and Spigot systems.

LATCHES AT A GLANCE

- » Wall/Post to Glass and Glass to Glass Latches available
- » Left or right sided gate opening
- » Magnetic latch action
- » 316 Stainless Steel plates with sturdy nylon polymer latch body

Finishes: Polymer & Mirror Polished Stainless Steel

» Pool compliant to AS1926.1-2012

HINGES AT A GLANCE

- » Highly polished 316 marine grade stainless steel
- » Superior rust resistance
- » Easy to adjust and install
- » Australian standards compliant

Finishes: Mirror Polished Stainless Steel

» Pool compliant to AS1926.1-2012

DIY? THE CHOICE IS SIMPLE

The Architects Choice is committed to ensuring the installation of our products is as simple as possible.

- » Use the online calculator to plan your job and create a shopping list
- » Still need help? Email sales@protectorpremium.com.au with any questions on our range of products.

ENDUROSHIELD

EnduroShield is an invisible, non-stick coating product that reduces cleaning time by up to 90% by repelling water, scum & grime.

Applying the EnduroShield coating is as easy as cleaning down the glass with the included cleaner and spraying the liquid coating onto the clean surface. Once applied the coating cures and forms a barrier, filling in any micro-scratches that cause grime to build on the surface. Once the coating is applied water will bead on the glass, this allows you to clean your glass easily and less often, without the use of harsh chemicals. The DIY kits come with everything you need to apply the coating to your glass at home. Works on new and existing glass.

ENDUROSHIELD AT A GLANCE

- » Easy to use
- » Repels water
- » 3 year warranty

* Available in Australia Only

COMPLIANCE

There are various accessories available for post and spigots systems. We recommend using a handrail with all balustrade systems. The chart below outlines when each product can be used.

Glass Type:	POOL		BALUSTRADE	
Post System:	Spigot	Post	Spigot	Post
Hinges and Latches	✓	✓	X	X
Offset Handrail	X	X	X	✓
Top Fit Handrail	X	✓	X	✓
Friction fit Handrail	✓	X	✓	X
Friction fit Clamps	✓	X	✓	X

Note: Clamps are not required if using Friction-Fit Handrail

HANDLING GLASS

Due to the weight and nature of glass panels we recommend a two-person lift when moving the panels. When moving and storing the glass it is vital that the glass edges never make contact with hard surfaces such as concrete or tiles.

We recommend the following safety gear when handling glass:

- » Safety glasses
- » Safety boots
- » Work gloves

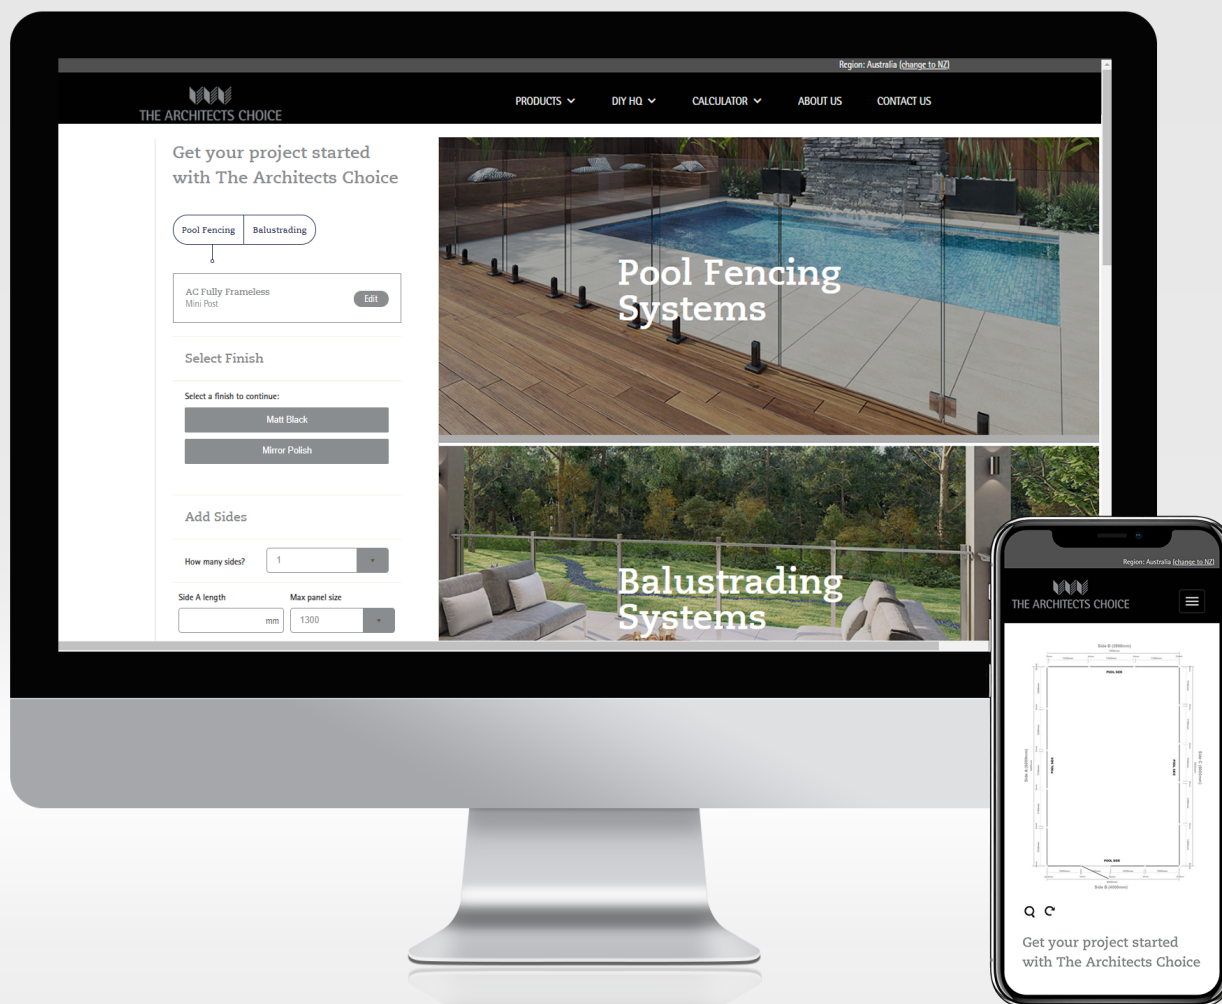

Pool Safety Requirements Before installing a fence, check with your local Council regarding specific pool fence requirements. Suitable for residential applications where the fall is less than 1 metre to ground level. Prior to purchase check with your local council about balustrade and pool rules and regulations in your area. Suitable for external use only.
