## POST SYSTEM INSTALLATION

**Pool Safety Requirements** Before installing a fence, check with your local Council regarding specific pool fence requirements. For further information visit [thearchitectschoice.com.au](http://thearchitectschoice.com.au)

1. Mark the line of your fence using a string line.
2. Measure and mark the placement of your Posts as per diagram.
3. If you are installing a handrail or using balustrade panels, measure and cut your posts to size now (refer to table below).
4. Fix Posts in place using appropriate fixings and fit cover plates if required.  
BALUSTRADE NOTE: Ensure the captive rubber that comes pre-installed in the post is on the inaccessible side of the deck, this will make it easier to roll-in the other rubber wedge later.
5. Install the infill and always use a sitting block to protect glass.  
NOTE: infill can be cut down to compensate for uneven fixing surfaces.
6. Using a 2 person lift, install glass panels into the post and level.
7. Roll-in the non-captive (or glazing) rubber wedge with a spline roller/soapy water to hold glass firmly in place, fit post cap.
8. Fit gate and any end-caps or handrails required.

### POST CUTTING GUIDE

Depending on the glass type and handrail you choose the post will need to be cut to suit, refer to the table for suggested cut lengths.

Post configuration	POOL GLASS	BALUSTRADE GLASS	BALUSTRADE GLASS ONLY NOT FOR POOL USE
Posts	no cut required	1075mm	Air Gap Cut to suit
Post and top fit Handrail	1280mm	1050mm	Offset Handrail 1075mm
Shortened Post*	905mm	905mm	*Post can be cut longer if required for a different look

Suitable for residential applications where the fall is less than 1 metre to ground level: for heights above 1 metre seek independent engineering advice and consult with your local building authority to determine suitability prior to installation. Suitable for external use only.

## Maintenance

Like all surfaces, stainless steel and aluminium requires cleaning to remove dirt and grime to keep it in pristine condition. The level of cleaning and maintenance required depends primarily on the environment, e.g. coastal situations, the surfaces will require regular washing to retain their good looks and prevent tea staining.

**NOTE: Harsh abrasives should never be used on any polished metal surface.**

Environment	Posts/Mini-Posts
Seafront	Monthly
Coastal (within 5km of the coast)	6-12 months
Urban	6-12 months
Suburban Rural	As required to maintain appearance

For further information regarding care and maintenance refer to our website.
