

Product Technical Statement

Company;	Everton Australia Pty Ltd	
Product Name;	The Architects Choice	
Type and/ or use of product;	Certified for use as a Swimming Pool Barrier	
Description of product;	Glass Pool Fencing- Semi Frameless Post System	
Performance Requirements;	AS1926.1-2007/2012	Section 3 Loading Requirements
	AS2208-1996	2.1.4 Safety Glazing material
	As1288-2006	Appendix E Fragmentation test
BCA (2019);	Volume One (Amdt.1) - N/A	Volume Two – 3.10.1(a)

Limitations and Conditions				
1	With regards to strength and/or rigidity of Safety Barriers for Swimming Pools, this Product Technical Statement limits compliance with AS1926.1, AS1288 to the following extent;			
	AS1926.1 – 2012:	Compliance with the test for Strength and Rigidity of Barrier Openings and the Strength Test for Rigid Barrier Components Only.		
	AS1926.1 – 2007:	Compliance with the test for Strength and Rigidity of Barrier Openings and the Strength Test for Rigid Barrier Components Only.		
	AS1926.1 – 1993:	Compliance with the test for Strength and Rigidity of Barrier Openings and the Strength Test for Rigid Barrier Components Only.		
	AS1288-2006:	A2, 7.4 Swimming Pool Barriers/ Fences. Where glass is used in a barrier/ fence to a swimming pool area, the glass used shall be Grade A safety glass and shall comply with other relevant requirements of this Standard		
	5.23 Identification of Safety Glass			
	5.23.1 Original Panels			
	Table 5.1- Maximum Areas of Safety Glass			
		Type of Glazing	Nominal Thickness (mm)	Maximum area (m2)
	Grade A Safety Glass	Toughened and toughened laminated glass	3	1.0
			4	2.2
			5	3.0
			6	4.0
			8	6.0
			10	8.0
			12	10.0
			>12	Extrapolate
	*Safety glazing material Grade A or Grade B to AS/NZS 2208			
2	Where used as a Safety Barrier of Fencing for Swimming Pools; compliance of the barrier with Section 3.2 (Strength of Posts and Footings) of AS1926.1- 2007 and AS1926.1-1993 and Section 3.5 of AS1926.1-2012 (Strength and Rigidity of a Gate Unit) is to be confirmed to the satisfaction of the Appropriate Authority.			
3	When incorporating a Architects Choice (Branded) Side Pull Latch and Architects Choice (Branded) Glass to Glass Hinges, these meet and exceed all requirements for Durability, Strength and Rigidity, Closing and Latching and Security of Closure requirements for Gate Units of Australian Standard AS 1926.1- 2007/ 2012.			
4	For the purposes of this Product Technical Statement, the term Appropriate Authority has the meaning defined in the National Construction Code.

Product Technical Statement

5	For Swimming Pool Barriers, the Product Technical Statement only applies to the Product Technical Statement holders The Architects Choice swimming pool panels as appropriately branded by the Product Technical Statement holder.
6	Information contained herein or related hereto is intended only for evaluation by technically skilled persons, with any use thereof to be at their independent discretion and risk. Nothing in this document should be construed as a warranty or guarantee by PCME Certifications, and the only applicable warranties will be those provided by the Product Technical Statement Holder.
7	This Product Technical Statement is issued based on the evidence of compliance as detailed herein. Any deviation from the specifications contained in this Product Technical Statement is outside of this documents scope and the installation of the certified product/ system will not be covered by this PCME Product Technical Statement. This may result in product being classified as a non-conforming building product/ system.

Product Technical Statement

Architects Choice Stainless Steel Hinge Set (AC1036);

Architects Choice Glass to Wall Latch (AC1023 Wall Post to Glass Latch);

Architects Choice Semi Frameless Post (AC1512 Joiner Post and AC1526 End Post) and Cast In Aluminium Joiner and End Posts;

Installation requirements;

Each State in Australia has its own regulations in regard to pool fencing and must installed in accordance to AS 1926.1-2012 and AS1926.2-2007 Location of Safety Barriers and AS 1288-2006 Glass in Buildings.

It is recommended that this product be installed by a suitably qualified tradesperson or competent DIY person. The finished Pool fence must be inspected and approved by a certified pool inspector or building authority.

	<p>1. In New South Wales delete 3.10.1.0(a) and insert NSW 3.10.1.0(a) as follows: (a)Performance Requirement P2.7.1 is satisfied for a swimming pool with a depth of water more than 300 mm and which is associated with a Class 1 building, if it has safety barriers installed in accordance with: (i)AS 1926 Parts 1 and 2; or (ii)If the swimming pool is a spa pool: (A)The requirements of (a)(i); or (B)Clause 9 of the Swimming Pools Regulation 2018. Application: NSW Part 3.10.1.0(a) applies in New South Wales to the technical construction requirements for barriers to restrict access to swimming pools, subject to out-of-ground pool walls and the walls of above ground pools, including inflatable pools, not being considered to be effective barriers. Note: The Swimming Pools Act 1992 and the Swimming Pools Regulation 2018, applicable to swimming pools with a depth of water of more than 300 mm, regulate the circumstances in which a barrier is required and prevail in the case of any inconsistency.</p> <p>2. Part 3.10.1.0(a) does not apply in Queensland. Note: Restriction of access to swimming pools in Queensland is regulated under the Building Act 1975.</p> <p>3. Part 3.10.1.0(a) does not apply in the Northern Territory. Note: Restriction of access to swimming pools in the Northern Territory is regulated under the Swimming Pool Safety Act.</p>

Product Technical Statement

Evaluation Statements

Evaluation methods;	PCME Certifications has followed the following procedures for compiling of Protector Premium Architects Choice (branded) Pool Fencing Product Technical Statement; <ul style="list-style-type: none">- Assessment of the Architects Choice (branded) Pool Fencing and Gates products- Assessing a quality plan for the Protector Premium's Pool Fencing and Gates that conforms to ISO1005- Reviewing testing of samples supplied to ascertain whether the product meets the performance requirements specified on this Technical Statement; and- Conducting site audits of the factory to verify compliance of the Protector Premium's "Architects Choice Pool Fencing and Gates"
----------------------------	---

Note; *The Product Technical Statement Holder has chosen not to make the below evidence of compliance publicly available, due to the documents being considered commercial confidence. For validation of the mentioned test reports Building Authority must contact the Product Technical Statement Holder directly.*

Product Technical Statement

Scope of Product Technical Statement:

The PCME (Product Compliance Made Easy) Product Technical Statement is to confirm that the relevant requirements of the Building Code of Australia (BCA) as claimed have been met. The responsibility for the product performance and its fitness for the intended use remain with the Product Technical Statement Holder. PCME Certification ensures all requirements to be classed as "Product Technical Statement", as per the National Construction Code for demonstrating compliance are fulfilled under NCC 2019 BCA Volume One, A5.2 Evidence of Suitability- Volumes One and Two.

Disclaimer:

The scheme Owner, Scheme Administrator do not make any representations, warranties or guarantees, and accepts no legal liability whatsoever arising from or connected to, the accuracy, reliability, currency or completeness of any material contained within this certificate; the Scheme Owner, Scheme Administrator disclaim to the extent permitted by law, all liability (including negligence) for any claims of losses, expenses, damages and costs arising as a result of the use of the product(s) referred to in this Product Technical Statement.

Note: This Product Technical Statement is only valid when reproduced in its entirety.
